

11 Benefits of Renting Equipment

VERSION 4: 240615

FINANCIAL BENEFITS

01. Preserve Capital

Renting equipment releases your capital into other parts of business where it can be used to generate additional profits.

02. Increase Borrowing Capacity

Improve your ratio of assets to liabilities, as borrowed equipment does not appear on your company balance sheet.

03. Avoid Extra Costs

It's expensive to sell used or obsolete equipment. Preparing, repairing and advertising the item for sale are all cost factors avoided with renting.

04. Ease Your Burden

Purchasing, maintaining and tracking your own inventory is daunting and time consuming. Renting removes this burden and reduces any pressure to manage and upkeep your own equipment.

TECHNICAL BENEFITS

05. Guaranteed Reliability

Work with the newest types and models of equipment. Industry is constantly upgrading the capabilities of technical equipment, so rent to avoid the risk of using obsolete tools that are slower and less efficient.

06. Relinquish Maintenance Responsibility

Renting removes any burden you may have of calibrating and maintaining equipment.

07. Seamless Operation

Without exception, all equipment while in use is subject to breakdown. When a rental item breaks down, we quickly replace it at no extra cost or effort to you.

08. Dedicated Team

When you rent from Nexxis you gain the support of our experienced team. Our product experts help get the most from your equipment.

OPERATIONAL BENEFITS

09. Scalability

Renting offers a rapid and cost effective way to cover peaks or troughs in production and short term needs.

10. Onsite Flexibility

If your work scope changes, either downgrading or upgrading or starting a new phase of operation, you will always have exactly the right amount of machinery.

11. Optimise Performance

Purchased equipment becomes old quickly, leading to poor production and lost time. Renting ensure your use only the newest models to optimise performance at every stage of a project.
